- Safety Controls for HWT, LLOP and Overspeed
- Float Tank
- Parts and O & M Manual
- Epoxy Biege Paint

Dealer's Name & Address

Features And Benefits

■ Highly Fuel Efficient

Latest technology, proven design gives you a highly fuel efficient engine which will reduce your operational cost

■ Lightweight

High power to weight ratio offers you a light, Compact engine which will allow you to load more catch as well as extra space in engine room

■ Safety Indicators

Engine has got electrical safety indicators for LLOP, HWT which will give you Indications prior to avoid major break down in high seas

■ Low lub oil consumption and low lube oil sump capacity

Latest technology gives very low lub oil consumption - a distinct advantage over competitor & reduction in overall operational cost

■ Low maintenance

Very low on maintenance & down time which will allow you a 24*7 hassle free fishing voyages. It will be the key factor for success of your business

■ Epoxy Coating

Considering humid atmosphere near sea shore, we have provided special epoxy coating to engine to avoid early rust formation of engine parts

■ Remote control panel

Remote control panel with sufficient length of wiring harness makes it very much convenient to operator user friendly operation

■ 24 hrs Parts & Service availability
